Kim, below is a response to Terms of Clearance for 1810-0519. OMB had wanted a response last July but apparently a formal response was never sent. It was briefly discussed with the collection at that time and with the EDEN group meeting/and collection listing presented to OMB last summer. However, a separate response was needed. Please forward to Rachel the below 2/27/06 response with the original NOA below that. This can be placed in the file/record. Thanks. Kathy

February 27, 2006

Note to Kathy Axt

Thank you for your reminder (below) that, as a Term of Clearance for the "ESEA Title I, Part C (Education of Migratory Children) Migrant Child Count Report" [OMB No. 1810-0519], "OMB expects ED to provide a progress report by July 2005 on including this data collection under PBDMI [Performance Based Data Management Initiative]."

The progress report is as follows:

ED's Office of Migrant Education (OME) staff have been in consultation with the ED staff responsible for implementing the EDFacts Reporting System (and the underlying database known as the Education Data Exchange Network (EDEN) Submission System) which are the systems that implement the PBDMI. The EDFacts staff have told OME that it is very likely that the child count data (including both the child counts themselves and a State's narrative responses to specific questions regarding the nature and quality of its child count compilation process) can be collected through EDEN starting with the 2006-07 performance year. This would mean that the child count data could begin to be reported to ED through EDFacts in early 2008.

Please convey my apologies to the relevant OMB staff regarding the lateness of this progress report. If you or they have any further questions about this matter, please do not hesitate to contact me.

James English
Program Analyst,
Office of Migrant Education
